2024/0993/P	Matthew Hubbard	18/04/2024 16:22:21	OBJ	<p>I strongly object to this application.</p> <p>It is inevitable that this activity will significantly degrade the natural beauty that the nearby Phoenix Community Garden offers residents, nearby workers and tourists.</p> <p>It is vital that the garden and its access to natural light is protected, especially given it is the last of central London's community gardens to survive. The Garden is a biodiversity hotspot, nature reserve, and critical community asset. The reduced sunlight from this development application will threaten much of its biodiversity.</p> <p>Camden Council has a duty to support local community and biodiversity initiatives: this development application directly opposes that duty.</p>
2024/0993/P	Mia Brown	18/04/2024 13:15:41	PETITNOBJ E	<p>I strongly object to this application on the grounds that it will radically diminish sunlight to the Phoenix Community Garden - the last of central London's community gardens to survive. The Phoenix Garden is a biodiversity hotspot, nature reserve, and critical community asset. The reduced sunlight from this development application will threaten much of the biodiversity of the garden.</p> <p>Camden Council has a duty to support local community and biodiversity initiatives: this development application directly opposes that duty.</p>
2024/0993/P	Paul beer	18/04/2024 14:08:26	COMMT	<p>Gardens need light so by giving planning permission to build and block the natural light your actions are destroying this wonderful central London green space. All we ever hear from the mayor of London is we need to reduce pollution and make London a better place to work and live This development would destroy this garden space. I strongly object to any high rise building that would block natural sunlight. We should be creating more urban green space and destroying them.</p>
