2023/5393/P	Stuart Perry	22/04/2024 14:01:53	SUPPRT	<p>I live next door in the lower two floors of 17 Cannon Place, and support this application. As best I can tell it mainly differs from the prior approved version 2023/2360/P by adding an additional single-storey small extension into the garden at the basement level, which I didn't do at my property. I think it's a great idea, on my side that part of the garden close to the house is paved (ie so no contribution to biodiversity or rainfall management), and is very shaded which means firstly I don't use it for sitting outside (ie it doesn't offer much amenity), and secondly a glazed extension wouldn't contribute to any heat build-up in the house. So I'd say the proposed extension would offer a huge amount of amenity to family life by adding indoor space, but with no negative external impacts, happy to support it.</p>
