Hi,

My client who lives in Vale of Health, Manor Lodge, NW3 1BB, asked me to apply for a permission to cut back 1x *Platanus hispanica* (London plane ) tree. I attach 2 pictures.

The tree is in very closely situated to the neighbour's property. The neighbour asked my client to cut the crown of the tree back to the last cut, as it is overshadowing their property.

I know it is a shame to prune it now, just before the new growth. It is a big tree and the crown had been reduced before, probably 4-5 years ago at least. It also has a lot of ivy growing on the main trunk, that I reckon can be cut back without any permission.

Please let me know if you need more info.

I am looking forward to hear from you.

regards

Agnes
