

EXISTING ELEVATIONS

The elevation isn't changing from the existing windows so the existing and the proposed are the exact location and same elevation as the existing windows.

The window design / glazing bars are a slightly different design to the existing windows due to being 3 panes instead of 4.

The new windows will still be 1000mm (ie. 1m) from the floor level of the property.

The property is on the third floor as marked in **red above.**

The proposed windows will be the same size as the existing windows, the only change is the material to uPVC.

Elevations (Overall Elevations)

GF - 2900mm (2.9m)

1F - 2900mm (5.8m)

2F - 2900mm (8.7m)

3F - 2900mm (11.6m)
