2024/1540/P	Nadia ragozhina	08/05/2024 19:34:03	COMMNT	It's a great idea to install solar panels on the roof of Brookfield primary school. It will go a long way to improving the carbon footprint of Camden as well as the school itself. I am fully supportive of this measure and hope Camden will seek out more buildings in the borough that can be used in such a way - to help Camden reach its climate targets and create a better and greener future for all.
