

Air source heat pump, Daikin Altherma 3, MSC certified, volume 0.467m3.

Roof extension, rendered walls to match existing below. Height of extension matching recent extensions on numbers 41 and 42 for consistency.

Alu-clad double glazed windows to align with original fenestration below. Extent of glazing reduced on this north elevation to reduce heat-loss and improve thermal efficiency. Insulated blind panels introduced to match fenestration below.

Line of original parapet retained to tie in with adjacent properties and preserve visual balance.
