| 2024/1095/P            | John Saynor             | 22/05/2024 16:59:14 | OBJ             | <p>This proposal contravenes section 4.7 of Camden Planning Guidance 1. Camden policy states that if your property is in a conservation area, replacing timber windows with uPVC windows would not be accepted. This property is located in the West End Green Conservation Area.</p> <p>This house is one of many of the style in this street and the proposal is insensitive to its surroundings. No adequate justification is given for the scheme. I strongly recommend that this application is refused.</p> |
