Subject: Planning Application - 2024/1955/P - OBJECTION in part

[REDACTED]

Good morning,

I would just like to raise my objection to an aspect of this planning application, namely the removal of the two CA-D parking bays on Hatton Place. The limited amount of CA-D parking in the Saffron Hill / Hatton Garden area already causes difficulty in parking; and I am hopeful that "removal" could be replaced like for like with two new parking bays in the area?

Kind regards,

Justin Conway
