Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

Informative(s):

- 1 Reasons for granting consent:

The proposals involve the display of 11no. window vinyls on the front elevation and 5no. window vinyls on the side elevation facing the access road, located to the south of the main front elevation. All the adverts would be located at ground floor level. The application site is UCL's student centre on Gordon Street.

The works form part of UCL's bicentennial celebrations, and the vinyls would display writing and images relating to the university. The scale, size and location of the vinyls is considered acceptable as they would not dominate the ground floor elevation and an acceptable amount of glazing surrounding the vinyls would be retained, thus ensuring the frontage remains active. They would not detract from the overall appearance of the building nor impact on the wider conservation area.

The vinyls, given their scale, size and siting, would not impact on public safety nor causes hazards to highway users.

The proposal is not considered to cause any adverse impacts on the amenity of

adjoining residential occupiers.

No objections have been received prior to making this decision. The planning history of the site has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policy D4 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2023.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
