

F. APPEAL STATEMENT

See section F of the guidance leaflet to help you decide what to include in your appeal.

The sole reason for refusing the application was because the lpa maintained the container was a building and would therefore constitute operational development. We contend it is NOT a building and rely on appeal decisions 3314720 and 3236326 referred to in the Officer's Report Ref: PAP/2024/0107 attached concerning whether or not a container should be considered to constitute a building, or not. Also, the container meets the definition of a caravan.

Please continue on a separate sheet if necessary.
