It is an exceptionally important venue for British folk music and folk traditions - particularly in introducing young people to our folk history. The library and archive are also tremendously valuable. My concern is that the proposed development (luxury flats) will lead to unreasonable complaints about Cecil Sharp House as a venue. I fear that a weak Council will then irreparably damage CSH's ability to operate as a venue on the whims of a handful of wealthy newcomers.</p> <p>I would like the Council to commit to protecting Cecil Sharp House as part of this development, if granting approval. The venue has nation-wide value and should not be jeopardised by developers.</p> |
