2024/1488/P	Beryl Lerman	07/06/2024 19:30:37	COMMNT	The planning for turning a front garden into parking space is not only extremely environmentally detrimental, causing possible local flooding and lack of natural vegetation .It is also irresponsible to void some current parking spaces for the residents of Goldhurst Terrace who have chosen not to tear up their front gardens .Parking spaces will be reduced even further with some additional building work on the project opposite 259 that is very likely to produce even more cars.
