2024/1971/P	hugh cullum	09/06/2024 19:24:38	OBJ	<p>This application involves the almost complete removal of the party wall between two historic properties and their amalgamation at street level into one larger retail unit. The loss of the historic property divisions harms the CA and we always object in principle to the removal of party walls. In addition the design attempts to create a bland uniform shopfront running across the bottom of two very different properties further eroding the separation between them and damaging the historic pattern of occupation and use along the pavement. Finally, we note the use of large panes of glass and the creation of a 'modern' metal shop frontage totally inappropriate to the character of the buildings above which deserve a more fine scaled timber shopfront with stall riser. On the basis of the above we strongly object to this application.</p>
