2024/2269/L	Lara Brearley	10/06/2024 20:58:18	COMMNT	<p>As a neighbour (no.13), we fully support this application. We also have an exposed front yard, with little privacy and concerns about security. We frequently have random people wandering into the yard, sometimes loitering and settling on our stairs if we are not home. We also have random cars parking in our front yard from time to time, mistaking our house to be that of a neighbour who rents out their space for parking. A front gate between existing brick piers, that is in the style of the existing railings, would be an elegant way to promote security and privacy, and deter random wanderers and vehicles, while being consistent with the character of the Crescent. We hope permission will be granted for this application.</p>
