In this part of London there are plenty of indoor delights but very few green spaces for people to retreat and take necessary respite feom the chaos and noise of the city. Please do not take this haven from our people and our wildlife. We are all struggling enough ad it is.
2024/0993/P	Sheila Cox	09/06/2024 12:50:10	COMMNT	<p>Having recently visited the Community Garden, I am concerned about the reduced sunlight, caused by an increase height of the 135-149 Shaftesbur Avenue and the effect it will have on the growth of plants in the garden.</p> <p>It will also affect the amount of daylight into the local flats.</p> <p>I was pointing out the historical building to visitors with me.</p> <p>I understand it is Grade 2 listed.</p> <p>From an historical view I feel it should remain as built.</p>
