

Warren Street

Waste Storage Calculations

Weekly, 2-3 per week and daily collection options

Based on information received March 2024

Mar-24

Warren Street - Land Use		GIA	Employees
B1 Business Offices		898	90
Total		898	90

BS 5906:2005 / Camden Waste Management Guidelines															
Land Use	Calculation	Collection Frequency	Total	General			Dry recycling			Organic Waste		TOTALS			
			Litres	Litres	Bin Size (litres)	Bin No.s	Litres	Bin Size (Litres)	Bin No.s	Litres	Bin No.s (140 litres)	1,100 litre bins	660 litre bins	360 litre bins	140 litre bins
B1 Business Offices	Total: 50l/employee; 75% total recycling target by 2030	Weekly (7 days storage)	4,500	1,125	1,100	2	3,150	1,100	3	225	2	5	0	0	2
B1 Business Offices	Total: 50l/employee; 75% total recycling target by 2030	2-3 collections weekly (4 days storage)	2,571	643	660	1	1,800	1,100	2	129	1	2	1	0	1
Total	Total: 50l/employee; 75% total recycling target by 2030	Daily (2 days storage)	1,286	321	360	1	900	1,100	1	64	1	1	0	1	1

Total waste requirements calculated in line with BS5906:2005

London Environment Strategy (2018) - General Waste : Recycling Waste @ 0.25: 0.75 by 2030 for non-residential waste by 2030

Camden Local Plan (2017) less rigorous - General waste : Recycling waste @ 0.40 : 0.60 in line with Camden 2030 aspirations

Organic waste is recycled and forms 5% of total waste

Total employee number based on 10sqm per employee (NIA). GIA used as a conservative approximation of NIA
