Materials

Does the proposed development require any materials to be used?

☒ Yes

☐ No

Please provide a description of existing and proposed materials and finishes to be used (including type, colour and name for each material) demolition excluded

Type:

Windows

Existing materials and finishes:

painted softwood sash

Proposed materials and finishes:

Windows will be generally overhauled and draught-proofed, joinery will be repaired on a like-for-like basis as required. To address noise and thermally upgrade the existing windows, secondary glazing will be fitted.

Type:

Floors

Existing materials and finishes:

Original floorboards underneath the existing carpet, generally in fair condition.

Proposed materials and finishes:

Existing floorboards to be locally repaired and covered with new carpet throughout.

Type:

Ceilings

Existing materials and finishes:

Lath & plaster ceilings with original cornices, generally in fair condition.

Proposed materials and finishes:

Acoustic insulation would be installed between ceiling joists. This will be done by lifting up the floorboards. This will allow the laths to be checked from above and repaired like-for-like as necessary and finished with lime hemp plaster to maintain breathability. Ceiling panels and cornices with appropriate profiles where missing will be reinstated on a like-for-like basis where necessary.

Type:

Internal doors

Existing materials and finishes:

Ground Floor Front and rear doors are original and in fair condition. The door from the rear office to the stairwell is a modern replacement of no significance. First Floor All doors to and from the lobby are modern replacements of no historic or architectural significance. Doors to the bedroom/lounge and to the rear bathroom are original and in fair condition. Second floor All doors are modern replacements of no historic or architectural significance except the doors to the rear bathroom. Third floor All doors are modern replacement of no historic or architectural significance.

Proposed materials and finishes:

Ground Floor Front and rear doors will be overhauled and draught-proofed, joinery will be repaired on a like-for-like basis as required and redecorated. Modern door to the rear office will be replaced with a new fire-rated door as per the door schedule report and specification, to a traditional design appropriate to the age of the property. First Floor Original doors will be overhauled, joinery will be repaired on a like-for-like basis as required and redecorated. Modern doors will be replaced with new fire-rated doors as per specialist report and specification to a traditional design appropriate to the age of the property. Second floor Original doors will be overhauled, joinery will be repaired on a like-for-like basis as required and redecorated. Third floor Modern doors will be replaced with new fire-rated doors as per specialist report and specification, design to be appropriate to the age of the property.

Type:

Internal walls

Existing materials and finishes:

Ground floor Brick party wall and partitions between hallway and offices have later panelling and dado rail of historic significance with some local modern infill, generally in fair condition. First Floor Brick party wall and partitions, including to the stairwell, are fitted with panelling and dado rail of historic significance with some local modern infill. Partitions to the lobby are modern stud work with plasterboard. Second floor Brick party wall and partitions, including stairwell, are fitted with panelling and dado rail of historic significance with some local modern infill. Sections of panelling are lost or heavily altered in the rear room and lobby. The partition between the lobby and kitchen is modern stud work and plasterboard. Third floor All walls and partitions have modern finishes and skirting boards.

Proposed materials and finishes:

Ground floor Existing panelling to be locally repaired on a like for like basis, unsympathetic modern panelling replaced with new panels of historically appropriate design to match existing and redecorated. First Floor Existing panelling to be locally repaired and reinstated on a like-for-like basis, and unsympathetic modern panelling will be replaced with new panels of historically appropriate design to match existing and redecorated. New partitions to be retained and upgraded to achieve the required fire rating. Second floor Existing panelling to be locally repaired and reinstated on a like-for-like basis, and unsympathetic modern panelling replaced with new panels of historically appropriate design to match existing and redecorated. New partitions to be retained and upgraded to achieve the required fire rating. Third floor Walls and partitions will be retained and upgraded to achieve the required fire rating as per specialist report.

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)
