GROUND FLOOR

- The side of the storage unit has been removed, and its height has been reduced. The final height of the storage unit should match the height of the bins.
- Baseboards will be removed internally wherever necessary.
- Bushes have been arranged around the storage unit to soften its appearance and reduce its visual impact. There will be a cut-out in the pavement to plant the greenery.
- The storage unit has been moved 30 cm closer to the property to create space for planting bushes to the front.
