In the application form this is described as a 'dead' tree which should be felled.</p> <p>For T2, the comment in the application form states that the tree should be cut back, as far as I can understand, and not felled. However, in the main description in the email and in the comment above, the instruction is to 'fell to ground level' for T2.</p> <p>Please can this be clarified?</p> <p>Reasons and justifications for felling any trees should be clearly stated and substantiated for the obvious environmental and amenity considerations.</p>
