2024/2582/P	WHGARA	29/06/2024 22:00:53	OBJ	<p>We have been asked by several neighbours to register an objection to this retrospective planning application for an oversize timber construction- regrettably build without permission- as it is totally out of keeping with the surrounding properties, character of the area and existing streetscape.</p> <p>No other property owner in the road has introduced such an overbearing and incongruous 'shed' blighting all their neighbours front garden amenity.</p> <p>It is not a 'minor' alteration but a major structure taking up the full width of the garden frontage to the pavement and 3/4 of the depth. It is visible down the whole block and breaches the policies of the FGWH Neighbourhood Development Plan-which seeks to protect the detail and quality of the residential area.</p> <p>We request that a planning officer visit the address to see for themselves how eccentric and unsuitable the layout and density of this 'erection' is and that this belated application be refused.</p>
