Supporting information requirements
Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.
Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.
Your local planning authority will be able to advise on the content of any assessments that may be required.
Biodiversity net gain Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.
Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.
Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?
○ Yes ② No
Please add all the exemptions or transitional arrangements that apply and provide a reason why
Exemption: Development subject to the de minimis exemption (development below the threshold) Reason for selecting exemption: Small residential extension/adaptation
Note: Please read the help text for further information on the exemptions available and when they apply

a. The principle of the extension could be supported.
b. An acceptable amount of garden amenity space would be retained and the extension would read as subordinate to the host building in accordance with CPG Home Improvements.
c. The alterations cannot be seen from the road, and therefore will have no visual impact on the streetscape.
d. The use of aluminium and white render would be considered appropriate for a contemporary addition on the rear.
e. The arrangement of two sets of extensive glazing, (the extent of glazing to the side of the proposed extension was much larger including an additional door in the previous proposal) lack design compatibility, are visually incongruous and lacks sympathy with the historic fenestration of the house.
f. A more symmetrical and simplified fenestration on the rear would be encouraged.
g. The installation of a green roof is strongly encouraged, especially on the flat roof portion.
h. Analysis is required for daylight levels to windows in the adjacent properties.

Authority Employee/Member

(b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
