35 years experience in biodiversity

Own production and control of bird foods

Supporting nature partners across UK and Europe

Bats typically rely on existing nooks and crannies for shelter and a safe space to raise their young. A shortage of natural spaces can make it difficult for bats to find suitable sites though so why not lend a helping hand and add a specialist bat box to your garden.

---

## **DESCRIPTION**

Bats typically rely on existing nooks and crannies for shelter and a safe space to raise their young. A shortage of natural spaces can make it difficult for bats to find suitable sites though so why not lend a helping hand and add a specialist bat box to your garden.

The Almaurol have been designed with an easy entry point and a grooved ladder entrance. The extra thick 18mm wood offers the best shelter from the elements as well as improving durability of the boxes.
