

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I don't I'm afraid, HOMES for people waiting, not student accommodation

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I do NOT support this scheme because:\n1) it causes heritage harm to the roundhouse [\n2](#)) it overshadows local residents homes 3) it is too tall for the area [\n4](#)) it is an overcrowding of the site

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I don't!! [\n](#)The scheme is wildly out of proportion for the location. Inconsiderate for its neighbours and towards the local heritage

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I don't support the plans for this scheme. [\nlt](#) will cause overcrowding of the area, it will overshadow the existing buildings and limit access to sky (vertical sky component), it risks heritage, and on top of that it has the audacity of including little to no affordable units.

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I don't. This is misleading. These properties will mainly be unoccupied luxury student housing for international students. [\n\nThe](#) 24 "affordable" properties will be nothing of the like. I note no cost actually shared so imagine they will be in region of HALF A MILLION for a 1 bed.
[\n\nThe](#) buildings are too tall, dark and will dominate the street.
[\n\nThis](#) is a shameless ploy to mislead and misinform.

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

I don't support it at all. It will ruin the local landscape aesthetically and decimate the local community.
[\n\nAffordable](#) housing is an absolute scam too - service charges are uncapped and freeholders use them as a blank cheque to maximise profits at leaseholders' expense. Shameful.

Dear Camden Council Planning Department,

I wish to register my support for application **2024/0479/P**, the redevelopment of 100 and 100a Chalk Farm Road to provide purpose-built student accommodation, new affordable homes and improved public realm

Reason given for support:

We don't support this development. The project is not well described on this site. The local residents are not in favour of the scheme. We have a flat and it is predicted that we will lose about 50% of our light.

Reason given for support:

Honestly I don't support unless at least half of it will be for people in the council housing list! [\nSo](#) how about to build for family or single homes people low cost housing and then half for student then I will support

Reason given for support:

1 for 1 student accommodation to affordable flats.\n\nLondon needs affordable places for people to live for years to come not academic years...\n\nThe plans need to have in place space to stop phone thief's otherwise it will be a hot spot for cycle thief's and make sure the building is sound proof especially as they will be living next door to a music venue.

Reason given for support:

The designs for the new buildings look great and it's good to see student development where it's needed. Too many students take up rented flats locally

Reason given for support:

I don't support it. You're going to put strain and already strained local infrastructure by placing a couple of hundred dumb students in the party capital of London social housing not student housing
