2024/2695/P	Nick Richards	04/07/2024 10:40:32	OBJ	<p>I live a short distance from the proposed alterations, which I object to strongly.</p> <p>The works, if implemented, would (i) block light from adjoining properties; (ii) overlook adjoining properties; (iii) potentially render the structure of the building unsound (given the incidence of subsidence in the area); and (iv) damage the aesthetic of the properties, which are otherwise broadly uniform in appearance.</p> <p>There is precedent for similar works being rejected at 61 Parliament Hill.</p> <p>I would be grateful if the points made above could be considered in any review of the application.</p>
