Condition	is: If no to any of the questions below the proposal is not permitted developm	ent
B.2(a)	Would the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?	Yes
B.2(b)	(i) Other than in the case of a hip-to-gable enlargement or an enlargement which joins the original roof to the roof of a rear or side extension, would	
	 (aa) the eaves of the original roof are maintained or reinstated, and (bb) the edge of the enlargement closest to the eaves of the original roof be no less than 20 centimetres from the eaves of the original roof, so far as practicable? and 	aa) Yes bb) Yes
	(iii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension, no part of the enlargement extends beyond the outside face of any external wall of the original dwellinghouse	(iii)Yes
B.2(c)	Would any windows inserted on a wall or roof slope forming a side	N/A
	elevation be obscured-glazed and non-opening unless the opening part is higher than 1.7 metres above the floor of the room in which the window is installed?	
	is higher than 1.7 metres above the floor of the room in which the window is installed?	
	is higher than 1.7 metres above the floor of the room in which the window	
Class C -	is higher than 1.7 metres above the floor of the room in which the window is installed?	No
Class C - C.1 (a)	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule 	
Class C - C.1 (a) C.1(b) C.1(c)	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use) As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof? 	No
	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use) As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof? Would it consist of or include— (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe; or 	No No No (i) No
Class C - C.1 (a) C.1(b) C.1(c)	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use) As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof? Would it consist of or include— (i) the installation, alteration or replacement of a chimney, flue or soil 	No No No
Class C - C.1 (a) C.1(b) C.1(c) C.1(d)	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use) As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof? Would it consist of or include— (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe; or (ii) the installation, alteration or replacement of solar photovoltaics or 	No No No (i) No
Class C - C.1 (a) C.1(b) C.1(c) C.1(d)	 is higher than 1.7 metres above the floor of the room in which the window is installed? Any other alteration to the roof of a dwellinghouse Permission to use the dwelling house as a dwelling house has been granted by virtue of Class M, N, P or Q of Part 3 of this Schedule (changes of use) As a result of the works, would the alteration protrude more than 150 millimetres beyond the plane of the slope of the original roof when measured from the perpendicular with the external surface of the original roof? As a result of the works, would it result in the highest part of the alteration being higher than the highest part of the original roof? Would it consist of or include— (i) the installation, alteration or replacement of a chimney, flue or soil and vent pipe; or (ii) the installation, alteration or replacement of solar photovoltaics or solar thermal equipment? 	No No No (i) No

The site is a terrace single dwelling house constructed in the 19th century. It is not within a conservation area, is not a listed building and is not restricted by an Article 4 direction, other than for borough wide basement excavations. It is within the Kentish Town Neighbourhood

Plan Area but this does not restrict permitted development rights.

The proposals meet all the limitations and conditions of Schedule 2, Part 1, Class B for The enlargement of a dwelling house consisting of an addition or alteration to its roof, and of Schedule 2, Part 1, Class C for other alteration to the roof of a dwelling house, as set out in the table above. Therefore, the certificate of lawful development (proposed) should be granted.
