

<b>Application No:</b>	<b>Consultees Name:</b>	<b>Received:</b>	<b>Comment:</b>	<b>Response:</b>
2024/2677/P	Peter Nau	15/07/2024 18:10:07	OBJ	<p>This is the 3rd time we have to address this planning application for the same proposed rear extension. Not only were the points raised in our previous objections not taken into account, the current application has even less details than the previous one!</p> <p>The elevations &amp; section drawings are gone, so are the proposed plans. We can see no references to finishes, roof angle, drainage, windows position, fence type and other points raised previously. This extension will be the view from the rear of our house. The application shows little respect to neighbours and adds to our concerns rather than alleviate them.</p> <p>Again, it is stated in the application (p. 7) that there is no existing parking to the property, when in fact there is a parking space at the front of the house</p> <p>We hope until the applicant gives more details about the proposed extension; planning will not be granted.</p> <p>Thank you.</p>
