Month

January

Year

1967

(Date must be pre-application submission)

Please provide a brief description of the building or part of the building you are proposing to demolish

Annotated photographs 2001(0)040-048 and demolition drawings 2001(0)060-063 are included in this application, detailing works as follows:

- New openings proposed to the building's original concrete structure for access and installation of new ventilation system.
- Removal partition between existing store and electrical intake / control room
- Enlargement of existing hatch in concrete structure between electrical intake / control room and auditorium.
- Removal non-original timber floor, floor finishes, ramps.
- Removal of non-original high level windows and part of stud wall.
- Removal of redundant services and staging equipment.
- Removal of damaged timber linings.
- Removal of infill to circular holes in auditorium walls

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The following upgrades are required to upgrade the performance of the building for school and community use:

- There is currently no accessible WC provision in the building, meaning that the building cannot be used independently of the main school buildings. To incorporate new accessible WCs into the plan, a new extension is required. New openings indicated on the demolition drawings are proposed to the existing concrete structure to connect the existing building and proposed extension.
- The building currently has no ventilation system other than opening high level windows, which cannot be opened if black-out is also required. Installation of a passive ventilation system suitable for a fully occupied space requires local demolition of existing concrete structure to connect external ventilation equipment into the floor void within the building.
- The proposed use of the existing store and electrical intake / control room as a servery / box office requires the demolition of a central partition to connections to install a small kitchen. An existing hatch is to be enlarged to enable refreshments to be served to the auditorium.
- Reconfigured staging and flooring is required to suit a range of uses and improve accessibility within the building.
- Strip out of redundant servicing and staging equipment is required to install new servicing and staging equipment to suit the requirements of the brief.
- Original timber linings are damaged in several locations and require repair. Removal and re-instatement of original timber linings is proposed to suit minor reconfigurations, conceal services or repair damage as described on the demolition drawings.
- Non original stud infill to circular holes in auditorium walls is to be replaced with acoustic separating construction to acoustically separate the auditorium from other spaces within the building.

Immunity from Listing

Has a Certificate of Immunity from Listing been sought in respect of this building?

- Yes
 No

Listed Building Alterations

Do the proposed works include alterations to a listed building?

- Yes
 No

If Yes, do the proposed works include

a) works to the interior of the building?

- Yes
 No

b) works to the exterior of the building?

- Yes
 No

c) works to any structure or object fixed to the property (or buildings within its curtilage) internally or externally?

- Yes
 No

d) stripping out of any internal wall, ceiling or floor finishes (e.g. plaster, floorboards)?

- Yes
 No

If the answer to any of these questions is Yes, please provide plans, drawings and photographs sufficient to identify the location, extent and character of the items to be removed. Also include the proposal for their replacement, including any new means of structural support, and state references for the plan(s)/drawing(s).
