2024/2605/P	Ann Shellard	17/07/2024 19:23:55	OBJ	The ground floor windows will need to be replaced like for like as the building is listed as being of historical interest. The current sash windows have bentwood frames around shaped panes. Any other configuration would not retain the original aspect, any plans that do not preserve the architectural character and appearance of the building/windows should not be permitted.
