Selvik is a beautiful sauna hut that's just the right size for small groups of friends or families. The beds are positioned so you can sit opposite each other and the bronze-coloured door provides a warm, light entrance that at the same time provides visibility protection. The sauna hut's round shapes contribute to good air circulation, making for an even and pleasant heat throughout your sauna. The kit's made of Nordic spruce and is delivered untreated so you can add the colour or finish of your choice. With a construction kit, it's quick and easy to build a sauna on your property!

The Bin Stores are designed to be used as stand alone units, or joined to our Pedalbase models, as they share the same low, unobtrusive profile. The design allows the lid to be lifted without opening the doors, for easy access when lifting the bins. For storing recycling boxes, simply add the shelving option – it only takes the space of one wheelie bin.
