2024/2799/P	Nicholas	23/07/2024 07:46:48	COMMNT	Concern around dust, noise and disruption during renovation works. How will applicants seek to minimise this?
2024/2799/P	CRASH	22/07/2024 18:12:49	OBJ	CRASH objects to the design finish of the proposed extension - as shown in the 142_A_visual submission. It is not a contemporary finish nor is it in keeping with the conservation area - it falls between the two and would not be a welcome addition to the building or stretch of Goldhurst. It would, in our view be preferable to be a highly modern (ie fully glazed) extension or an unstuccoed extension. CRASH accepts that it can't be seen from the street but feels that it neither preserves or enhances the conservation area and as such should be redesigned.
