2024/2950/T	BA Abraham for The Belsize Society	25/07/2024 12:17:14	OBJ	For The Belsize Society: We object to the felling of this ash tree. This mature ash tree is visible from Belsize Park and is part of the important green corridor of trees between Belsize Park and Belsize Lane, which provides protection against air and noise pollution and a haven for diverse wildlife. Insufficient evidence has been provided of the nature and extent of subsidence or of the results of investigation by structural engineers or of the results of level monitoring. This tree is subject to a TPO and felling should be the very last resort, after all other solutions, such as the installation of a root barrier or regular pruning over a few years, have been tried.
