The history of the agreement between the developers and the residents has been well documented here. In 2015 the developer was allowed to build 5 storeys in return for a cinema which would benefit the neighbourhood.</li><li>2. Now we have had many years when the developer made efforts to find someone or organisation to take on the running of such a cinema. These have failed.</li><li>3. The current application is now for either a Class E or Class F planning. Class E (commercial) would mean the community would lose all involvement in the building.</li><li>4. Under the current circumstances we could support Class F which would allow community involvement and a chance perhaps we could get the cinema one day.</li><li>5. We are opposed to Class E and would like this application to be refused and a new application requesting Class F in its place.</li></ol>
