Subject: TPO works 8 Doughty Street
Application reference: 2024/2742/T

Application for works covered by a TPO

I object to these works.

The trees are beautiful.

They help us in many ways.

At such an age they cannot be replaced.

They have a right to existence.

There appears to be a strategic solution to the worries about their possible longer term effects on the adjacent building. I have yet to be convinced that there is benefit from felling them.
