

Application No:	Consultees Name:	Received:	Comment:	Response:
2024/2757/T	Linda/Ashley Potter	26/07/2024 18:48:34	PETITNSUP P	We fully support the application. Trees need to be properly maintained and should not be left to grow for decades without any care at all. As resident of the Garden Flat next to the trees, it is the first time in our memory (spanning 23 years) they have been subject to any tree maintenance order. We have an East facing garden which used to be bathed in natural sunlight in the morning/midday when we first arrived in Frognal in 2002. Now at the height of the summer at 12:00pm our garden is in full shade. The one tree to be felled T2 has a trunk leaning at 60/70 degrees from the ground level growing out of a very mature and large conifer (not subject to application) that has had no way to grow over decades but to grow sideways to be able to catch any sunlight with branches all south facing adding further to weight imbalance and risk to property/life. If the trees had been subject to proper maintenance 20 years ago perhaps T2 could have been saved. Linda & Ashley Potter
