

## **Fire Safety Strategy**

The proposed installation of a kitchen extraction system, a fresh air intake system,  
and a commercial kitchen canopy for a commercial unit

69 Clerkenwell Road London EC1R 5BU

Ben Tseng, Architect (ARB)  
Director at Layer 02 Design Ltd  
SUITE 5, 5TH FLOOR, CITY REACH,  
LONDON, E14 9NN

### **Section 01: Means of Escape**

Single Fire Exit in and out of 14 square metres of the small site, facing Clerkenwell Road, under the existing security gate, when the unit is open for business and the gate opened.

### **Section 02: Fire Appliance access**

On Clerkenwell Road or Saffron Hill.

### **Section 03: Construction**

All the proposed kitchen equipment breaching the internal-external envelope would be non-combustible.

### **Section 04: Fire Safety Equipment**

Fire extinguishers, smoke alarms, and emergency lights will be installed in relevant locations in the restaurant following the fitting of the proposed commercial kitchen.

Locations of these items would follow the guidelines set out by the building regulations, to be approved by approved inspectors, London Fire Brigade or other certified third parties.
