Dear Sir

Re: BAPS CULTURAL CENTRE 25 Old Gloucester Street, London. WC1N - PLANNING DISCHARGE CODNITION 8

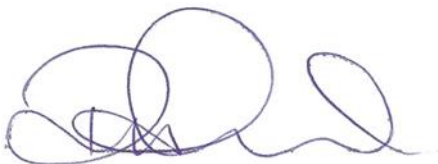

Thank you for the email with the condition 8 from the planning permission at the above-mentioned project I include the condition below for clarity:

“8 The development hereby approved shall not commence until such time as a suitably qualified chartered engineer with membership of the appropriate professional body has been appointed to inspect, check for compliance with the design (as approved by the local planning authority and building control body) and monitor the critical elements of both permanent and temporary basement construction works throughout their duration. Details of the appointment and the appointee’s responsibilities shall be submitted to and approved in writing by the local planning authority prior to the commencement of development. Any subsequent change or reappointment shall be confirmed forthwith for the duration of the construction works.”

I would confirm I will be fulfilling this role; I am an Associate Member of The Institute of Structural Engineers Membership number 06436424X with over 30 years’ experience as a structural engineer and personally carry £5 million of Professional Indemnity.

I trust the above to be adequate for your purposes, however should yourself or any other interested party require further information please do not hesitate to contact the undersigned.

Yours Faithfully

Richard Millar
