Subject: Response to planning application 2024/2771/A

[REDACTED]

To: Camden Council Planning and building development

Please accept response to planning application 2024/2771/A

To support many other responses opposing this application.

The proposed signage contravenes many principles that should be considered and adopted in a conservation area.

If the proposal were to be approved it would be set a precedent that similar applications to this in the future would be acceptable.
