Subject: 40b Frognal 2024/2757/T

Re planning application for works to trees 2024/2757/T - I fully support this application.

I have lived at 44 Frognal for 30 years, and this is the first time these trees are to be maintained, which is necessary in this urban environment for safety reasons. The trees are also increasingly overcrowded leading to lack of sunlight and dieback to undergrowth, and I now have no direct sunlight in my garden due to overgrown trees.

I support this application on grounds of safety and light levels.

Yours,

Clare Layton
