[REDACTED]

I should like to add my objections to the developers' application to change of use of the above referenced development to Class E (for commercial use and so excluding the long promised cinema). We would not object to Class F, however, as this would allow for community use and still allow for a cinema, which, I believe, was included in the original planning application.

I would beg you to consider the objections of the local community to this proposed change of use.

Many thanks
