2024/2423/P: Templar House - No Comment

Dear Elaine,

The BCAAC was given virtually no time put in a response to this application all be it that it has "No Comment".

What is unacceptable however is that the application was registered on June 25<sup>th</sup> & then apparently granted on June 28th, 3 days later. Though listed as 'non material amendments' these were in fact quite substantial amendments.
