| 2024/2788/P | Henry Coleman | 01/08/2024 22:25:48 | OBJ | <p>There is no supporting information for this Application on which to comment. It is very hard to gauge the impact of these works without supporting information. There are no drawings beyond a site boundary and no indication of which is 'Block M'. There are no details on what the new plant would look like or where the new satircase will go. There is no noise impact assessment etc etc. As a resident of Lulot Gardens we have recently been subjected to invasive and troubling works in the car parks of the Mental Health Centre. The Hospital are aware of our concerns and should be especially observant to consulting with residents to us aware of plans. It is not right that other who are less local and less directly affected would be consulted with as a matter of course without including the representative bodies of the Whittington estate. As such I cannot support this application without information and will object on the basis of a lack of consultation and impact assessment.</p> |
