2024/2648/P	P. Stollery	05/08/2024 00:20:40	OBJ	<p>Applications were made in previous years and withdrawn by London Borough of Camden because it was decided the application was not meritorious on the basis of security issues as claimed.</p> <p>The is very considerable difference between the claims made being conjecture and the actual facts.</p> <p>A quick perusal of the Metropolitan Police online tool for checking local crime rates reveals that there were no crimes at all on the Beaumont Walk Estate or the immediate perimeter over the past year.</p> <p>Neither are there people simply wandering around the estate as claimed. A Ward Housing manager spent an entire afternoon on the estate and informed me that I was the only person he had seen. Other council officials came to the same conclusion.</p> <p>It is a very quiet estate, I am here every day and its rare to see anyone here other than going/returning to work or school or occasionally visiting residents.</p> <p>There isn't a problem with people visiting without legitimate reason (that isn't to say that this won't change in the future).</p> <p>Several years ago there were problems which were quickly addressed and dealt with by the police and LB Camden security patrol.</p> <p>I have never known a CCTV trial to be tried on the estate as claimed, there hasn't been a need for one.</p> <p>In terms of security the proposal is a very expensive white elephant, it serves no purpose with a cost to local taxpayers into 6 figures if electric entry phone systems are also added.</p> <p>A former consultation with the police ended with the proposal being neither supported or unsupported, an officer told me that the perimeter wall is simply not high enough to deter any person with unlawful intent, it may cause a false sense of security in this regard.</p> <p>The proposal for the gate/railings on Eton Road is precisely on the border of the Eton Conservation area and the proposed industrial looking light grey gates/railings are entirely unsympathetic to the area which includes Victorian villas, Homes directly opposite in Eton Road have residential style railing in Black and also wood doors. A similar colour and more sympathetic style to the area would be preferable.</p> <p>I vehemently object to proposed gate 1 on the map which would mean tearing down part of the perimeter wall which hides the garden area used by young children and occasionally their pets on the estate, the wall affords them privacy and safety as the Adelaide Road B509 is the main road connecting Swiss Cottage and Camden Town used by lorries and buses.</p> <p>There are already too many entrance gates within this proposal and the children's safety must be assured within the garden, a gate could allow very young children to wander off directly onto the busy road.</p> <p>I should point out that in the 28+ years I have lived here, the perimeter wall has been knocked down nine times in different locations on the perimeter, each time the council has taken over one year to rebuild, it seems rather fanciful to suggest that the proposed gates may provide security when there are (some years including</p>
