Informative(s):

- 1 Reasons for granting advertisement consent:

The proposal is for the installation of a timber fascia and illuminated fascia signage, logo and projecting sign. The building is not listed or within a conservation area and has been recently constructed. It comprises commercial use at ground floor with a mix of residential, office, retail and leisure units within the building. It is proposed to install a timber fascia board with internally illuminated white lettering and a small halo lit small logo sign on the fascia. An oval shaped internally illuminated projecting sign will also be installed on the fascia and will feature the logo of the business.

The size, siting and design of the signage would be considered appropriate on the building, and would not detract from the overall character or appearance of the host building. The internally illuminated lettering, halo illuminated logo signage and internally illuminated projecting sign would be accommodated directly above the ground floor windows of the building and would be of an appropriate size and materials such that it would preserve the visual amenity of the building and would not be to the visual detriment of the wider area. It is considered that the natural finish of the timber fascia will help enhance the appearance of the building and street scene which has a multitude of fascia signage in different styles and finishes in this area.

By virtue of their nature and location, the proposals are acceptable in amenity and public safety terms.

No neighbour objections were received prior to the determination of the application. The planning history of the site has been taken into account when coming to this decision.

As such, the proposal is in general accordance with Policies D1, and D4 of the London Borough of Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2023.

- 2 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.
- 4 All works should be conducted in accordance with the Camden Minimum Requirements - a copy is available on the Council's website (search for 'Camden Minimum Requirements' at www.camden.gov.uk) or contact the Council's Noise and Licensing Enforcement Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No. 020 7974 4444)
