About the role

Camden is building somewhere everyone can thrive, by making our borough the best place to live, work, study, and visit. Because we're not just home to UK's fast-growing economy. We're home to the most important conversations happening today. And we're making radical social change a reality, so that nobody gets left behind. Here's where you can help decide a better future for us all.

The Euston and King's Cross area, with transformational changes arising from HS2 and the Euston station redevelopment, alongside related programmes in the Somers Town and Regent's Park areas, help deliver the Transport Strategy as well as multiple other place-making and regeneration objectives. We have a fantastic opportunity for a highly organised and innovative Principal Transport Planner to join our multi-disciplinary team, leading on Healthy Streets and transport planning projects across this area of the Borough

The things you'll achieve

On the planning side, the post will lead transport input into the [Euston Area Plan](#) review process, and transport planning advice for the Euston Station Masterplan area which has the potential to deliver 1000s of new homes and jobs. The post will ensure that designs for the new stations at Euston ensure transport considerations are fully considered, including commentary on relevant pre-application and applications processes for both Euston station and Euston over-station development.

On the projects side, this post will also bring the Euston Healthy Streets scheme to life; including transformation of Euston Road and nearby streets, making highways and public realm changes that deliver a step-change in provision for pedestrians, cyclists and public transport users. And the role will lead on developing and delivering schemes in the wider Euston hinterland, funded by the HS2 Road Safety Fund, with a particular emphasis on transformational walking and cycling improvements, including within the [Regent's Park Safe & Healthy Streets](#) project. The postholder will also project manage transport schemes within the [Somers Town Future Neighbourhoods](#) project, such as green mobility hubs, the Crowndale Road cycle route, multiple Healthy School Streets and the Greening Phoenix Road project. The role will also work closely with TfL deliver Healthy Streets improvements on the surrounding "TLRN" network.

About you

Experience

To be successful in this securing this role you will have strong experience of successful project management and delivery of complex, area-wide traffic-reduction and healthy streets schemes.

You will also have a strong understanding and experience of the policy and statutory framework within which the Euston Masterplan Healthy Streets, transport planning and related activities fit.

You will have excellent experience of partnership working both internally and with external partners (GLA, TfL etc)

You have

You will be a pro-active and forward-thinking experienced project manager, capable of successfully managing initiatives, often over-lapping with one another, both on time and to budget.

You will be able to help prepare high quality papers and reports for Council Committees, public meetings, and other bodies

You will be able to demonstrate the ability to effectively help support and oversee the workload of more junior members of a team and/or consultants.

Other important stuff...

People management

The role will line manage a Senior Transport Planner

Work environment

It will be hybrid working - you'll work from our main offices, 5PS, in Kings Cross and be expected to work at least one day a week in the office

Who you will be working with

You'll be joining a great team of transport planners delivering some of the most ambitious sustainable transport schemes and policies in London. You'll report to the Head of Transport Strategy & Projects. You'll also work closely with colleagues in the Euston and HS2 teams, and with others teams from across the organisation.

The application process

There will be an application form to complete followed by an interview which will include a pre-prepared presentation

Who we are

Diversity & Inclusion

At Camden, we value and celebrate difference and encourage diversity in all respects. Our diverse workforce ensures we represent our communities to the best of our ability and enables us to make better decisions. Because of this, we particularly welcome applications from Black, Asian and those of other non-white ethnicities, those who identify as LGBT+, neurodiverse and disabled people.

Agile working

At Camden we view work as an activity, not a place. We focus on performance, not presenteeism. We create trusting relationships, we embrace innovation rather than bureaucracy and we value people. Collaboration is the Camden way, silo working isn't.

Asking for Adjustments

Camden is committed to making our recruitment practices as accessible as possible for everyone. This includes making adjustments or changes for disabled people, neurodiverse people or people with long-term health conditions. If you would like us to do anything differently during the application, interview or assessment process, including providing information in an alternative format, please contact us on 020 7974 6655, at resourcing@camden.gov.uk
