2024/2752/P	Sophie Jolowicz	20/08/2024 16:11:46	OBJ	<p>Sophie Jolowicz, 29 Chalcot Road, London NW1 8LN - adjacent to 30 Chalcot Road.</p> <p>I object to the air conditioning condenser unit on the fourth floor front terrace with the vent against our party wall. I also have a balcony and it is being positioned close to my balcony. The noise will be disruptive and the 'hot air' being expelled unpleasant. This room is my sitting room (I only have 3 rooms - bedroom, kitchen and this room) and I will be able to hear the extraction fan when inside and outside on the balcony. The door to the balcony is often open (summer and winter) as the sun is very warming. I am retired and use this room all day.</p> <p>It appears that it will exceed the noise criteria of being no more than 10dB above the background level without a casing. I do not believe the casing will silence the unit sufficiently.</p> <p>I object to this strongly.</p>
