

SECTION 7 Grounds For Application – Continuation Sheet.

We also believe a Certificate should be issued in this case because as the container that it is proposed to site on the application site for use ancillary to the lawful residential use meets the definition of a caravan, as set out in the 1960 and 1968 Planning Acts relating to caravans, this container would be able to be sited on the land lawfully under the Certificate already issued for the siting of a caravan ref: 2023/4907/P, copy attached to this application, as is a plan entitled Caravan Compliant Container showing internal facilities that could be put in place within the container which would not require the need for planning permission.
