2024/3306/P	Cllr Linda Chung	01/09/2024 13:30:08	COMMNT	I object to this retrospective application which should be refused and enforcement action taken. From complaints of the neighbours and local community, I understand the Watch House has kitchen extractor fans that generate considerable hot air and smells, which emissions emanate through the louvres causing considerable nuisance. This not acceptable and it is suggested that the applicant and responsible architects "opt for some other means of cooling their kitchen and lowering CO2 emission".
