**Subject: Palm tree removal back garden**

**Good morning Jake**

**A little over two years ago, during COVID, I got permission to remove a palm tree from my back garden, at 42 chetwynd road. I submitted the request, as the tree is now over two stories tall, in a garden that is five metres by five metres, and it presents a risk of damage to both our and neighbouring properties.**

**Unfortunately, due to COVID, I was unable to find a contractor to remove it. Over the subsequent months, I have been distracted by the day to day, but now realise that this really is a task I need to get completed.**

**I have noted that the original approval is now expired, and I wanted to request it to be reapproved. Can you assist?**

**I've attached an image of the tree for your records.**

**Many thanks**

**Eric**
