

Good morning

I'm writing today to put an objection in relating to this property  
20 Swains Lane  
London  
N6 6QS

that wants to put a large heat pump on their back fence. At the bottom of their garden  
in the corner which is only a few feet from my window in flat A  
Ground floor of 12 St Albans  
Road NW5 1RD. My name is  
Paula Marks,

My bedroom window is only 10 feet from where this pump would be situated. I am not  
happy that a noisy pump would be heard at nights while I try to sleep. I have health  
conditions that rely on a good nights sleep.

Blue arrows on photos depict where the neighbours garden starts and they want the  
heat pump wants to be installed. It's too close .  
I hope this is taken into consideration.

Kind Regards  
Paula Marks

I know these pumps can be loud as I lived where one was previously, so I moved.  
Which I won't be able to repeat as I'm 59.

Kind regards  
Paula Marks
