

# Harcostar 1,050 Litre Magnum Water Butt Triple Kit

## Description

Triple your home's water conservation with the Harcostar 1,050 Litre Magnum Water Butt Triple Kit. It's ideal for saving water for larger gardens, storing an incredible 1,050 litres of rainwater, and comes complete with a spring-operated child-safe lid, and hose connector tap, which is situated 340mm above ground level. Channel the rainwater which falls on the roof of your home directly into the water butt, via the enclosed Harcostar Universal Rain Trap, which recycles your rainwater so you can water your garden, or use it for any other outdoor jobs.

The Harcostar Universal Rain Trap fits standard 68mm, 80mm and 100mm round plastic downpipes and 65mm square plastic downpipes. Please note, it is not suitable for cast iron downpipes.

Each barrel is 108cm (43 inches) tall and measures 64 cm (25 inches) in diameter at the base and 78cm (31 inches) at the top.

**\*\*All water butts should be placed on a flat, even surface to allow even distribution of weight. Placing on soil or grass is not recommended\*\***

We cannot guarantee the colour of the water butt shown in our promotional literature or on our website exactly reproduce the colour of the physical goods themselves.
